

You are in consideration to receive scholarship funding from the Nuclear Regulatory Commission (NRC) grant program. Should you accept and use the NRC funds, the award may impact your financial planning if you intend to use Tuition Assistance (TA) or Veterans Benefits (VA). The Office of Military and Veterans Education (OMVE) is available to provide you with counseling to ensure you get the best impact from your military and veteran benefits while simultaneously using the NRC funds.

Please read and sign below confirming that you are aware of the parameters of the NRC Grant Program:

1. I understand that if I am using military TA, I can use the NRC funds to cover the cost of textbooks and fees.
2. I understand that I can use my NRC scholarship for courses in lieu of TA, or if my TA has run out and I will notify OMVE if I do not plan to use TA.
3. I understand that if I am receiving supplemental benefits (BAH, etc.) from VA and I use NRC funds for courses that result in me dropping below the minimum required VA certified courses, I may not be eligible for those benefits; if I maintain the required minimum for VA but want to use NRC funds instead, I may lose one month of VA eligibility.
4. I understand that I need to maintain a 3.0 GPA in the program and remain enrolled in an NRC approved degree or I will be required to repay the scholarship dollars.
5. I will work with an advisor to pre-plan my courses, ensuring that selected courses meet degree requirements.
6. If you were awarded Financial Aid, your FA will coincide with the terms as planned. The Office of Financial Aid will handle adjustments to previously awarded FA funds.

Please list your anticipated courses and terms:

Course	Term
